DIMENSIONS :

INSTALLATION :

The best way to install your seat is as follows:

1. Slide the nylon 't' bolts into the hinge blocks on the back of seat
2. Place the seat on the pan ensuring the bolts are guided through the holes in the pan
3. Place a nylon washer then the nylon wing nut on the bolts protruding through the pan
4. With out tightening the bolts centre the seat on the pan
5. Tighten wing nuts firmly

Notes:

- Seat Thickness is 45mm
- Standard bolts will fit pans where the porcelain through which the bolts are fitted is no thicker than 45mm
- Please contact Cush'n Soft for details on fitting a standard soft padded toilet seat to pans with blind fitting fastening systems.
